### Reasons for Allowance

Independent claims 1 and claims 2-4, 11 and 12 which depend therefrom are allowed for the reason the prior art does not provide in combination, "... creating a high performance file at the designer location that comprises both a print job to be printed by the print service provider location and a job ticket that contains shipping instructions... the designer location receiving updated device configuration information from the automated shipping device via said closed-loop communication link, said updated device configuration information comprising information about installed features and capabilities of the automated shipping device, automatically verifying at the designer location that the automated shipping device is capable of shipping as per said shipping instructions contained in said job ticket. The designer location submitting the high performance file to the print service provider location via said closed-loop communication link."

Art Unit: 2625

Independent claim 5 from which claims 6-8, 13 and 14 depend, are allowed for the reason the prior art does not teach in claimed combination, "... receiving updated device configuration information at the designer location from the automated shipping device location via said closed-loop communication link, said updated device configuration information comprising information about installed features and capabilities of the automated shipping device; automatically verifying at the designer location that the automated shipping device is capable of shipping as per said shipping instructions contained in said job ticket; submitting said high performance file from the designer location to the print service provider location via said closed-loop communication link"
